Rocky Mountain Resources Retains the Windward Agency to Provide Investor Relations and Public Relations Services

June 10, 2010

Vancouver, BC - Rocky Mountain Resources (RKY: TSX.V) ("Rocky Mountain") is pleased to announce that effective June 10, 2010, it has retained the services of Windward Global ("Windward") of Charlotte, North Carolina. Windward, founded by its principal, Kelly Boatright, will provide assistance with Rocky Mountain's Investor Relations and Public Relations efforts. Windward has served the natural resource sectors for more than two decades and maintains a strong presence in Canada, the United States and Europe.

Windward will receive a monthly retainer of US\$5,000, plus approved expenses. The initial billing will contain an initial startup fee of US\$2,500. The agreement will progress on a monthly basis, renewing automatically, and may be terminated by either party by two-week written notice. Windward does not engage in market making activities and will restrict its services to public relations and investor relations counseling.

Windward maintains an extensive network of representatives and account service specialists in Toronto, New York, Charlotte, Atlanta, London, England and Zurich, Switzerland. In addition to organizing broker road shows, Windward will also manage press release dissemination, assist in the design of marketing materials, and miscellaneous tasks related to Rocky Mountain's investor relations and public relations programs.

About Rocky Mountain Resources Corp.

Rocky Mountain Resources Corp. is a tier-one metals exploration and development Company focused on developing environmentally favorable projects within politically stable regions with the potential to host large deposits of industrial metals. Rocky Mountain is currently developing a world-class vanadium resource in the state of Nevada, U.S.A. Vanadium is growing in importance as an alloying metal used to strengthen steel as well as the emerging uses with lithium vanadium batteries and storage cells for renewable energy. With virtually all world production of vanadium

coming from China, South Africa and Russia, the Gibellini project, being located in Nevada, gives the Company the opportunity to become North America's first and only primary producer of Vanadium. Gibellini's favorable geologic setting and amenability to low cost heap leach recoveries offer unique low cost production capabilities. A Scoping Study has been completed by AMEC E&C Services and is available on SEDAR and the Company's website www.rkyresources.com.
