ROCKY MOUNTAIN RESOURCES CORP.

Notes to Interim Consolidated Financial Statements

May 31, 2008

(Unaudited – Prepared by Management)

1. Basis of presentation:

These unaudited interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial statements. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments (consisting of normal and recurring accruals) considered necessary for fair presentation have been included. Operating results for the three month period ended May 31, 2008 are not necessarily indicative of the results that may be expected for the year ended February 28, 2009.

The interim financial statements have been prepared by management in accordance with the accounting policies described in the Company's annual financial statements for the year ended February 29, 2008. For further information, refer to the Company's consolidated financial statements and footnotes thereto for the year ended February 28, 2008. At May 31, 2008, the Company had working capital of \$1,673,333, had not yet achieved profitable operations and expects to incur further losses in the development of its business. The ability of the Company to continue as a going concern is dependent upon the existence of economically recoverable reserves, the ability of the Company to arrange appropriate financing to complete the development of its property interests, and upon future profitable production.

2. Accounting policy change:

Financial Instruments

Effective March 1, 2008, the Company implemented the new CICA accounting sections: 3862 (Financial Instruments – Disclosure), 3863 (Financial Instruments – Presentation), which replaced section 3861 Financial Instruments – Disclosures and Presentation. These new standards revise and enhance the disclosure requirements, and carry forward, substantially unchanged, the presentation requirements. Sections 3862 and 3863 emphasize the significance of financial instruments for the entity's financial position and performance, the nature and extent of the risks arising from financial instruments and how these risks are managed. These new standards are applicable to interim and annual periods relating to fiscal years beginning on or after October 1, 2007. These new Sections relate to disclosure and presentation only and will not have an impact on the Company's financial results.

Capital Disclosures

Effective March 1, 2008, the Company implemented the new CICA accounting section 1535 (Capital Disclosures). Section 1535 specifies the disclosure of (i) an entity's objectives, policies, and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance. This new Section relates to disclosure and will not have an impact on the Company's financial results.

Assessing Going Concern

The Accounting Standards Board ("AcSB") amended CICA Handbook Section 1400, to include requirements for management to assess and disclose an entity's ability to continue as a going concern. This section applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008.

Future pronouncements

International Financial Reporting Standards ("IFRS")

In January 2006 the AcSB announced that accounting standards in Canada are to converge with IFRS. The AcSB has indicated that Canadian entities will need to begin reporting under IFRS by the first quarter of 2011 with appropriate comparative data from the prior year. Under IFRS, the primary audience is capital markets and as a result, there is significantly more disclosure required, specifically for quarterly reporting. Further, while IFRS uses a conceptual framework similar to Canadian GAAP, there are significant differences in accounting policy which must be addressed. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

- (e) Contributed surplus:

The continuity of contributed surplus is as follows:

| | Number of | | Amounts | | |
|-------------------------------|-----------|----------|------------|-----------|------------|
| | Options | Warrants | Options | Warrants | Total |
| February 28, and May 31, 2008 | 690,000 | 154,050 | \$ 296,696 | \$ 52,808 | \$ 349,504 |

6. Related party transactions:

Related party transactions not otherwise disclosed on these financial statements consist of:

- (a) Office facilities and administrative services for \$12,000 to a company with a director and two officers in common;
- (b) Rent for \$400 to a director of the Company.
- (c) Accounts payable to a company with a director and two officers in common of \$4,547.

The above transactions were in the normal course of business and were measured at the exchange amount which is the amount agreed to by the related parties.

7. Segment disclosures:

The Company considers itself to operate in a single segment, being mineral exploration and development. Geographic information is as follows:

| | Canada | United States | Total |
|----------------------|-----------|---------------|-----------|
| May 31, 2008: | | | |
| Loss from operations | \$63,812 | 424,032 | 487,844 |
| Identifiable assets | 1,874,827 | 529,347 | 2,404,174 |

| Identifiable assets | 884,775 | 500,430 | 1,385,205 |

8. Management of financial risk:

The Company's financial instruments are exposed to certain financial risks, including currency risk, credit risk, liquidity risk, interest risk and price risk.

- (a) Currency risk

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company operates in Canada and United States. A significant change in the currency exchange rates between the Canadian dollar relative to the U.S. dollar could have an effect on the Company's results of operations, financial position or cash flows. The

ROCKY MOUNTAIN RESOURCES CORP.

Notes to Interim Consolidated Financial Statements

May 31, 2008

(Unaudited – Prepared by Management)

Company has not hedged its exposure to currency fluctuations. The net exposure in financial instruments as at May 31, 2008 is not material.

(b) Credit risk

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations.

The Company's cash and cash equivalents and short term investments are held through large Canadian financial institutions. Short-term investments are composed of financial instruments issued by Canadian banks and companies with high investment-grade ratings. These instruments mature at various dates over the current operating period and are normally for periods three months or less.

(c) Liquidity risk

The Company manages liquidity risk by maintaining adequate cash balances in order to meet short and long term business requirements. The Company believes that these sources will be sufficient to cover its cash requirements for the upcoming year. The Company's cash is invested in liquid investments with quality financial institutions and is available on demand for the Company's programs and is not invested in any asset backed commercial paper.

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The risk that the Company will realize a loss as a result of a decline in the fair market value of the short-term investments included in cash and cash equivalents is limited because these investments, are generally held to maturity.

(e) Price risk

Although the Company is not in production, the nature of the project potentially exposes the Company to price risk with respect to commodity prices. The Company monitors commodity prices to determine the appropriate course of action to be taken by the Company.

9. Capital Management

The Company's objective when managing capital is to maintain adequate levels of funding to support exploration and development of its mineral exploration projects, and to maintain corporate and administrative functions.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through the issuance of common shares, the issue of debt or by undertaking other activities as deemed appropriate under the specific circumstances.

The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remains unchanged from the year ended February 29, 2008.
